

# Arjun Sasi

## Software Engineer

☎ 8848178432    ✉ arjun.vkv.97@gmail.com

## PROFILE

As an experienced Software Engineer, I have worked on several web and mobile applications using React JS, React Native, and other front-end web development technologies. I have a strong foundation in software engineering principles and practices, which I use to build clean, efficient, and maintainable code.

## EXPERTISE

- UI/UX
- React
- Next.js
- Node
- Storyboards

## PORTFOLIO

- Feel free to check out my Github profile for more details.  
[github.com/arjunvkv](https://github.com/arjunvkv)
- Here is my portfolio:

## EXPERIENCES

### Hashtag Systems Inc | (08/2021 - 02/2022)

#### Travel Connect

- An application that offers a variety of travel packages to customers, and personalized travel planning services allowing users to create custom itineraries tailored to their specific needs and preferences. Used ReactJs, SASS, bootstrap, node js, express, MongoDB.

#### Ring of Hires

- A responsive web app designed to help job seekers find suitable employment opportunities, Employers can use the platform to post job listings and screen potential candidates based on their qualifications and experience.

### NeoITO | (02/2022 - Present)

#### CertCentral

- An application that allows users to create and publish courses for learners to complete, as well as provide certification for completed courses. The application typically allows course creators to design course content, such as lectures, assignments, and quizzes, and upload it onto the platform. Learners can then enroll in courses and access the content at their convenience. The application may also provide tools for course creators to track the progress of learners and create certificates. Upon completion of a course, learners can receive certificates verifying their achievement, which can be used for professional development.

## EDUCATION

### BCA | 2018 - 2021

#### M. G. University Kottayam

- Concentration: Web Development
- Relevant courses: Data Structures, Algorithm Design, Database Management Systems, Software Design Methodology, Networking, Linux.

## SKILLS

HTML5, CSS3, JavaScript, React, Sass, SCSS, Git, npm, Rest API, Frontend development, Webpack React developer, class components, code optimization, performance improvement, frameworks such as Next.js, SQL Server, React Router, Express, MongoDB, Bootstrap, Tailwind, Version Control Git, Firebase, Tailwind, nodejs, maps, ChatGPT, Testing, Material UI, Gatsby, Svelte, Yarn, DevTools, Lighthouse, Slack, GitHub, GitLab, TeamWork, jQuery, Agile, JSON, Python, Django REST, MYSQL, AWS, multi tenancy, object oriented, problem solving, debugging.
